## 12-Week IT Bootcamp:

We welcome aspirants from diverse career backgrounds, aiming to make a transition into non-coding IT roles. Our program encompasses rigorous training, real-world projects, and consistent mentorship to chisel them into proficient BA/QA/SMs.

## IT Project Team Specialists

Building on our bootcamp's success, we assist businesses in identifying our Bootcamp Alumni (BA/QA/SM) talent that not only has the requisite IT knowledge but also offers a fresh, out-of-the-box perspective. These trained individuals are not only cost-effective but have consistently proven their mettle in the industry.

## Full-Scale IT Staffing

Addressing the diverse needs of businesses, we take on the task of identifying, vetting, and recommending highly qualified candidates, be it for permanent roles or contract positions. Our unmatched industry expertise ensures you get the right fit every time.

## Nearshore Technical Talent

In our endeavor to offer unmatched value, we provide businesses access to an exclusive pool of nearshore talent, particularly developers based in Brazil. Our clients benefit from the unparalleled advantages of nearshore staffing – significant cost savings, linguistic proficiency, and the convenience of similar time zones.
